

Dear valued clients:

I am writing you this email in person and wish that everyone is doing well.

Since the inception of Lins International in 1979, I have received tremendous support from all our valued clients. I want to take this opportunity to express my sincere appreciation from my heart. THANK YOU ALL!

After 35 years in the industry, I have decided to retire from the business and spend more time with my family. This was a hard decision since my life and passion has been in Lins International. Nevertheless, there is no endless party in this world. We will vacate our warehouse by 3/31/2015. After that, no more inventory will be carried except the inventory for the already confirmed orders - they will be kept in a safe place and to be shipped as many as possible, to our customers as soon as possible. Also we will continue to operate until all the confirmed orders that are supposed to be shipped from overseas directly to some of our customers are shipped. After all these are done, Lins International will eventually be closed officially.

However, a couple of my employees will continue in this industry through their own responsibility. One of them is Winnie Su under her new company named Unique Home Design International. The other one is Helen Chan under her new company named Meifa Company. I wish them luck & success and I believe they will contact with you seeking for your continuous support.

It has been a great experience through all these years. I am truly blessed to have worked with so many great people in this journey. I wish you health and wealth in the future to come.

Again, I thank you from my heart for your help and support through the years!

Sincerely,
Shuyuan Lin
